

Dansk Laverda Klub

INVITATION: The Danish Laverda Club celebrates its 40 + 1 -year anniversary!

2022 marks the 40 + 1 year's anniversary for the Danish Laverda Club. Late by one year, due to corona restrictions, we are now ready to go through with the celebration. It will take form as a "long weekend" rally.

We hope to see Laverda friends coming from all over Europe, and of course all our Danish members as well.

As special VIP guests we hope that some of our regular suppliers of parts – bits and pieces will join us for the weekend.

When: August the 12. – 14.

Where: Tranum Strand Kursuscenter

Strandvejen 83, 9460 Brovst.

(Brovst is located in the northwestern corner of Denmark)

Rooms in various sizes available. From two to eight persons / room.

Camping in tent or camper possible.

We hope to be able to exhibit a small collection of rare models.

Saturday a joint ride to the seaside. We will see the rare sight of fishing boats, not in a harbor, but pulled directly from the sea up on the beach. Also, a visit to the wind turbine test center in Østerild. The biggest of it's kind in the world. Here we also find the biggest wind turbine ever build. 100 km +/-?

Saturday evening a jubilee bash with dinner is organized. Cold beer of good quality from the tap.

Prices and further info's will be available on WWW. Laverda.dk shortly (ultimo May)
